ABOUT ME

<Hello everybody>🙌

I just graduated from high school and recently completed the Fullstack bootcamp at Code for All_, where I learned HTML, CSS, JavaScript, Node.js, and React to build the internet!🌐

I spent 8 years in Scouts and 9 years in catechism, where I learned teamwork, survival skills, and patience. Now, I'm ready to kick off my programming career, eager to learn and contribute every day.

If you're looking for a junior with energy, curiosity, and a positive attitude, let's chat!😃
